Munen Muso. I have two sons whom have been attending your Little Ninja♦s program for over
a year now. I truly feel the lessons that you have been teaching them in your Dojo have gone far
beyond your competitors. I come from a family who have been heavily involved in Martial Arts
here on the Central Coast for over 20 years, myself included. All of my family members have
attended lessons and gradings at Munen Muso and share, wholeheartedly, my thoughts and
expressions of praise for the level of care and discipline you are teaching the children. </p> <p> </p> <p>My eldest son was quite shy and withdrawn socially when we first enrolled him. Through skill,
guidance, respect and a sense of belonging, you have offered him the much needed tools to
build on his self confidence and self worth. He eagerly awaits his classes each week and
confidently approaches each grading with a sense of achievement and value. For this I am
especially grateful. </p> <p> </p> <p>On a personal note, it is no secret how accomplished you both are in your own Martial Arts careers
but to apply this level of stature to nurture future generations, is rare and should not be taken
for granted. You both teach in a way that honours your craft and skill set whilst being friendly,
approachable, humble and genuinely interested in your students and their families. This the very
essense of why I will encourage my children to stay on at your facility for as long as their passion
continues, which I sincerely hope is right throughout their lives. </p> <p> </p> <p> </p>
